

In the beginning, the activities were centred around introduction of coconut cultivars from different parts of India and other countries, selection, hybridisation, identification of superior local and hybrid varieties and their distribution among farmers. Very good achievements were attained in this regard. After the implementation NARP, research activities were intensified and apart from research on coconut, research on Cashew, Rice, Mango, Vegetables, oilseeds, pulses and tubers was also initiated.

The mandatory crops of the station are:

1. Coconut
 2. Cashew
 3. Rice
 4. Mango
 5. Banana
 6. Vegetables
 7. Animal Science
