[Home](#) > Information cum Sales counter

---

Elite quality of planting materials such as coconut hybrids, vegetable seeds, cashew grafts and mango grafts, medicinal and ornamental plants are available from the station. Also the major products and services of the station are also available from the station.

Along with the sales counter, a separate ready to eat food pro mall is also functioning at the station. The food promall serves the various refreshment items processed in the station using the farm produce. This serves as a model for budding entrepreneurship in value addition
